

How to Manage Your Lines

As a Spectrum Internet customer, you can add up to 20 lines to your Spectrum Mobile account, including smartphones, tablets or smartwatches. The following information will help you manage existing lines or add a new line of service.

Download the My Spectrum App

The My Spectrum App lets you manage your services on the go from your favorite mobile device.

[Download Now](#)

Add a Line

You can add a new line of service by [signing in to your account online](#).

Note: If you're an existing customer and want to swap or change your device, you can get started at [Spectrum.com](#).

Name Your Lines

You can easily differentiate between multiple devices registered on your account by creating nicknames for each line of service that you add.

To change your device's nickname online:

1. **Sign in** and select **Services**.

-
2. Select the **Mobile** sub-tab, then choose the device you want to rename.
 3. Next to the device's name, select the **edit icon**.
 4. Enter a nickname and then select **Save**.

Data Options

With up to 20 lines included on your account, you can mix and match data options to best suit everyone's needs.

[Learn more](#) about our Unlimited, Unlimited Plus and By the Gig data options.

Data Notifications

You can [set data notifications](#) to manage how much data each By the Gig line uses each month.

Billing

Learn more about your Spectrum Mobile bill by visiting [Billing FAQs](#).

Change or Cancel Service

If you need to temporarily suspend or cancel your Spectrum Mobile service, call [\(833\) 224-6603](#).

If you have questions about a landline, visit our [Spectrum Voice page](#) for support.
